

**STATEMENT OF MISCELLANEOUS SERVICES CHARGES FOR
INDEPENDENT POWER NETWORKS LIMITED**

This statement is effective from 1st April 2008

Independent Power Networks Limited,
Driscoll 2,
Ellen Street,
Cardiff,
CF10 4BP
Registered No. : 4935008

**STATEMENT OF MISCELLANEOUS SERVICES CHARGES FOR INDEPENDENT
POWER NETWORKS**

1. Introduction

The Statement details the Transactional charges to be levied to persons (Users) using Independent Power Networks Limited's electricity distribution system for the purpose of conveying electricity to and from premises or distribution networks of other electricity distribution network operators.

The statement has been prepared in accordance with the requirements of the electricity distribution licence granted under the Electricity Act 1989, as amended by the Utilities Act 2000, the Sustainable Energy Act 2003 and the Energy Act 2004 ("the Act"). Words and expressions used in this statement shall have the meaning given to them in the Act and in the electricity licence and shall be construed accordingly.

This document should be read in conjunction with the Use of System Methodology Statement and the agreement for the use of system in place between IPNL and the User, which sets out, inter alia, the licence obligations and the terms and conditions for providing use of system.

This statement has been prepared in a form approved by the Gas and Electricity Markets Authority (the 'Authority').

IPNL's charging statements on:

- Use of System (UoS) Charging Methodology (SLC4);
- Use of system (UoS) Charges (SLC4A); and
- Connections Charging Methodology and Statement (SLC4B)
- Charges for Provision of Metering Point Administration and Data Services

are published separately.

Changes to the charges shown in this statement

Charges shown are current at the time of publication Changes to these charges will be subject to the provisions of the relevant agreement for use of system.

The company will give 30 days notice of any changes to the charges in this statement.

2. Transactional Charges for energisation, de-energisation and re-energisation

The following charges apply when the relevant service is required of the distributor rather than the meter operator. These charges are based on the energisation, de-energisation and re-energisation being undertaken at the service cut out/meter position. Other methods of de-energisation, re-energisation (e.g. service cable joint) will be individually quoted.

Transactional charges for energisation, de-energisation and re-energisation
--

	Activity	Charge
1.	Energise, de-energise or re-energise Visits to site premises to perform a change of energisation at the supplier's request will incur this charge even when the request does not result in a change to energisation Where the visit is to a larger business site, is other than during normal working hours, or is otherwise exceptional, then individually assessed charges will be quoted.	£35.00
2.	Abortive Visit Charge	£35.00
3.	Investigate fault Where no fault is found or fault lies in equipment which is the responsibility of another person	£35.00
4.	Disconnection of supply	Individually quoted
5.	Out of hours visits Normal working hours are 08.30 – 17.00 Monday to Friday Out of hours are all other times	£75.00
6.	Unmetered supplies Charges will be quoted individually on application	Individually quoted

Charges for other services ancillary to Use of System will be individually quoted.

3. Transactional charges for Revenue Protection Services

IPNL does not offer services for revenue protection. Users/suppliers are therefore advised to make their own arrangements for this service.

If IPNL subsequently chooses to provide such services, charges will be individually determined to reflect the level of service required. Any agreed terms will be included in an agreement between the supplier and IPNL.

4. Transactional charges for Urgent Metering Services

IPNL does not offer services for urgent metering. Users/suppliers are therefore advised to make their own arrangements for this service.

If IPNL subsequently chooses to provide such services, charges will be individually determined to reflect the level of service required. Any agreed terms will be included in an agreement between the supplier and IPNL.

5. Radio Teleswitching Services

IPNL does not offer services for radio teleswitching. Users/suppliers are therefore advised to make their own arrangements for this service.

If IPNL subsequently chooses to provide such services, charges will be individually determined to reflect the level of service required. Any agreed terms will be included in an agreement between the supplier and IPNL.
